

Technology that Transforms Smart Utility Solutions

Multitech, ZENNER IoT Solutions and ZENNER International demonstrate a LoRaWAN™-connected end-to-end water metering solution.

- ZENNER's water meter communicates via LoRaWAN
- MultiTech's Conduit LoRaWAN gateway
- ELEMENT an technology agnostic IoT platform by ZENNER IoT Solutions

MultiTech and Zenner Demonstration

Data Visualization

ZENNER IoT Solutions product portfolio completes the products and services of the ZENNER-Minol-Group, which offers LoRaWAN hardware products for the utility and real estate industry worldwide. ELEMENT, the application enablement platform made by ZENNER IoT Solutions features devices, sensors, actuators and gateways of independent manufacturers and technologies such as LoRaWAN. The IoT platform interconnects all kinds of different IoT devices and undertakes: management of network and devices as well as data aggregation and visualisation.
